

Puppy 101 In Marin

In 4 weeks **your puppy** will learn self-control & how to trust, respect & work with **you**.

You will learn how to provide everything **your puppy** needs to live a happy & stress-free life in your care; get it right from the beginning so you will have the willing companion you always dreamed of!

Classes follow Dog Listener* theories & protocols.

This is NOT a puppy obedience class.
Your puppy will be learning how to be
"well behaved".

Puppies are divided into large breed & small breed groups as their play styles & sizes can be unsafely different.

Class Description:

Here are just some of the important things we accomplish & work on during class:

1. **Puppies** learn from each other through play. Bite inhibition; use of body language while also learning to respect another dogs'; learning to respect **your** place in the pack as decision-maker or "leader"; learning what is good & acceptable social behavior to be able to live in your family peaceably.
2. **You** learn how to communicate with your puppy in a way he/she will understand.
3. Is your **puppy's** behavior appropriate? What they are trying to "say" using their body language?
4. **Puppy** house training, chewing, barking, nipping, jumping up etc.

We will have a great time watching, learning and playing with the pups.

Come to class with a flat collar or harness, a flat leash and a supply of yummy edible rewards. Bully sticks are available for purchase at class (these are used in an exercise we will do).
